

GLEN HAYWARD: DENDROCHRONOLOGY

until 2 December, 2018

Whanganui-based artist Glen Hayward makes extraordinary sculptures from wood. This exhibition features a life-sized recreation of a Toyota Corolla that Hayward remembers from his childhood that was abandoned in a paddock. This work is one of his largest to date and the interior of the car features components carved in meticulous detail like the steering wheel, dashboard and hand brake, all made from wood! This is a great opportunity for students to engage with a large scale piece of sculpture and think about the different forms a sculpture can take. The title of the show *Dendrochronology* is the word used for the scientific study of tree rings or 'growth rings' to the exact year they were formed in order to analyse atmospheric conditions during different periods in history.

Hands-on practical sessions:

3D cars on card –Yrs. 1-8

Students will design and construct a 3 dimensional collage using paper cut outs of their drawing. They will glue tabs onto the back allowing their vehicles to come forward off the background creating the varying depths. Their vehicle could fly, roll or float!

125: CELEBRATING WOMEN FROM THE COLLECTION

until 17 February, 2019

2018 marks the 125th anniversary of the women's suffrage movement in New Zealand. This exhibition brings together a huge range of works from our rich and varied collection that depict female subjects. From prints, painted portraits, drawings and contemporary photography, the exhibition is a celebration of the way many artists have chosen to depict women. This is an excellent opportunity for students to consider the importance of the suffrage movement, the role women play in society and perhaps the women who are special to them. Curriculum links: *Visual Arts*

Hands-on practical sessions:

Portraits –Yrs. 1-13

Students will make a portrait focusing on the proportions of the face. This session can be drawing, painting or printmaking.

Education Programmes/Services are **FREE!** and are funded by the **Ministry of Education** Learning Outside the Classroom initiative (**LEOTC**) & **Whanganui District Council**.

IN THE HAND

until 20 January, 2019

Hands are an essential component to making for any artist. This exhibition in our object-based gallery includes a diverse range of works by artists who have not only made their objects by hand but have made things that could literally fit 'in the hand'. As well as a celebration of the hand-made, the works investigate the small objects we encounter in everyday life.

Hands-on practical sessions:

Birds in the hand –Yrs. 1-13

Students make their own clay bird that fits in their hands, depending on age and level these could be flat or 3D. We will be using a red clay and painting on a white clay slip to add colour and detail. *Note: Last date for this practical is week 6.*

Sample: 3D clay birds

Eyes! –Yrs. 1-8

Inspired by jeweller Octavia Cook's eyes in the exhibition *In the Hand* paint or collage your own eye brooch or fridge magnet. Will your eye be crazy? Will it be the eye of an animal, human or will it be imaginative?

Christmas decorations sample

CHRISTMAS DECORATIONS AND GIFTS

Available all term

Come and view some beautiful artworks from our collection that focus on NZ's beautiful flora and fauna.

Hands-on practical sessions:

Christmas Decorations –Yrs. 1-8

Students will create their own decorations using acrylic and metallic poster paints with the theme of NZ flora and fauna.

Carnivorous plant and flower paintings –Yrs.1-13

Paint your own creepy carnivorous or beautiful plants and/or flowers using acrylic paint or water colour. These will make beautiful paintings to give as gifts to family and friends.
